ABOUT ME:

Hello! I'm a third-year B.Tech student specializing in Artificial Intelligence and Data Science. Proficient in data structures, algorithms, and frontend web development, I'm passionate about the dynamic intersection of technology and innovation. Currently honing my skills, I thrive on challenges and bring a foundational understanding of machine learning. Eager to contribute meaningfully to the tech landscape, my goal is to leverage my knowledge and adaptability. Actively seeking real-world projects, I aspire to make a positive impact in the ever-evolving fields of AI and Data Science. Let's innovate together in this exciting journey of learning and growth!
